Spring is officially here! Now that we finally have that winter weather behind us, it's amazing how quickly time has flown by, but we have reached the end of our Brakes for Kids promotion. It was incredible to see how much we raised for St. Jude through this promotion. We will soon be announcing the amount on our Facebook page, so keep an eye out!

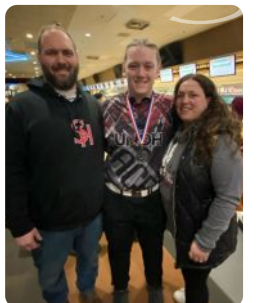

This month, I am able to look forward to doing one of my favorite things – camping! As many of you know, we will be experiencing a total solar eclipse on April 8th, and my wife and I will be enjoying it out at Rossburg Acres with our friends that afternoon. I hope you all get to enjoy this once-in-a-lifetime experience!

My son, Jackson, will now be working at the shop more frequently until he completes school in May. We are thrilled to have him here at the shop with us and eagerly anticipate his transition to a full-time technician soon! If you see him around, be sure to wish him luck, as he finishes his schooling.

With that being said, I hope everyone had a happy and blessed Easter and is looking forward to the spring weather just like I am!

Sincerely,

*Ted Heitbrink*

## TOTALLY TRIFLING TRIVIA!

**CANADA EXTENDS AS FAR SOUTH AS CALIFORNIA.** Canada is famously known as the Great White North, but most of its citizens live in the country's southerly regions — which are more southerly than you might think. In fact, 60% of all Canadians live south of Seattle, Washington. All in all, 27 states in the U.S. are totally or partially north

of Canada's most southern point, near Middle Bass Island in Lake Erie. Areas above that highest point even include a small sliver of California, which may seem counterintuitive considering the state contains one of the hottest places on Earth (Death Valley)!

## APRIL 7 IS WORLD HEALTH DAY

World Health Day is a global health awareness day celebrated every year under the primary sponsorship of the World Health Organization (WHO). In 1948, the WHO held the First World Health Assembly. The Assembly decided to celebrate April 7th of each year, beginning in 1950, as World Health Day. World Health Day is held to mark WHO's founding & is seen as an opportunity by the organization to draw worldwide attention to a subject of major importance to global health each year. The WHO then organizes international, regional & local events on the Day related to the chosen subject. The theme for World Health Day 2024 is 'My health, my right' and was chosen to champion the right of everyone, everywhere to have access to health services, education, and information, as well as safe drinking water, clean air, good nutrition, quality housing, decent working and environmental conditions, and freedom from discrimination.

## APRIL IS NATIONAL CAR CARE MONTH!

### HERE ARE SOME SAFETY & PERFORMANCE REMINDERS FOR SPRING DRIVING...

- Batteries:** Winter weather takes a toll on batteries. Have your repair professional check out the charge level.
- Wiper blades:** The wear and tear of winter months can leave you and your blades a bit frayed. Replace blades to keep your vision clear.
- Tire exchange:** Swap out those winter tires for all-season or summer treads. Warm temperatures dramatically accelerate wear on the soft rubber compounds.
- Tire replacement:** If you haven't checked tread depth recently, take a quick look and see if your tires are holding up. If not, it's time to fit your vehicle with the right tires for your driving plans.
- Spare replacement:** Your safety depends on a reliable spare tire. When was the last time you checked the spare tire? Take a peek if the answer is "never" or "I can't remember." Safety experts recommend replacing the tire if you see any cracks in the rubber.
- Tire pressure:** Tires lose air every month. If you haven't checked air pressure since fall, have them inspected and re-inflated.
- Chips and cracks:** Did your windshield encounter an object such as pebbles or other road debris?
- Drips and leaks:** Things tend to get jarred loose over the rough winter months. Freezing and thawing cycles also can cause problems with seals and connectors. If you notice any leaks or drips, get them inspected right away.
- Fluid reservoirs:** You likely used your windshield washing fluid frequently this past winter. Top off the fluid and check the coolant reservoir as well.
- Alignment:** If you encountered potholes or curbs in the colder months, they could ruin your tires in the warmer months. An alignment inspection will help straighten out problems and extend the life of your tires.

To help you celebrate Arbor Day on April 26th, we're going out on a limb to guarantee these jokes will tickle your timbers!
