MANAGER'S MINUTE

Season's Greetings! Although it is one of the busiest times of the year, it is also the most enjoyable. One of the many joys of the holiday season is all the family time throughout the upcoming weeks. Even though I spend every day with members of my family, it is nice to be able to spend quality time together outside of the office. There are many bowling tournaments to look forward to this time of year as well. Getting to watch both of my sons do something they enjoy and accomplish their personal goals every season is such an amazing feeling.

It is crazy to think that this year is almost over. Feels like yesterday that the year just started, but here we are ending the year strong and ready to jump into 2024. At Chickasaw Garage, we would like to celebrate the holidays with a gift to you all. Stop by the office sometime this month to spin the prize wheel! With one spin per customer, it gives you a chance to win some of our merchandise or even a \$10 gift certificate to use at your next appointment! With that being said, in warm appreciation of your loyalty during the past year, we extend our very best holiday wishes to you and your loved ones. Enjoy this time of year, and we will see you in the next one!

**Merry Christmas & Happy New Year,
 Ted Heitbrink**

BE PREPARED FOR WINTER DRIVING!

Driving in the winter can be harrowing, especially in snowstorms and icy conditions. By getting your car ready for winter and using some simple tips to drive safely, you can face almost any weather Mother Nature decides to send your way.

PREPARE YOUR CAR FOR WINTER

In addition to annual maintenance, here are some tips to winterize your car:

- Test your battery; battery power drops as the temperature drops
- Make sure the cooling system is in good working order
- Have winter tires with a deeper, more flexible tread put on your car
- If using all-season tires, check the tread and replace if less than 2/32 of an inch
- Check the tire pressure; tire pressure drops as the temperature drops
- Check your wiper blades and replace if needed
- Add wiper fluid rated for -30 degrees
- Keep your gas tank at least half full to avoid gas line freeze

Remember to keep your car's emergency preparedness kit fully stocked, too.

BEFORE YOU START OUT

- Clean your car's external camera lenses and side mirrors
- Remove dirt, ice and snow from sensors to allow the assistive-driving features, like automatic emergency braking, to work
- In frigid weather, you may want to warm up the car before you drive
- To prevent carbon monoxide poisoning, never leave a vehicle running in your garage – even with the garage door up
- If the forecast looks iffy, wait out the storm; if you must travel, share your travel plans and route with someone before you leave

Remember, you are your car's best safety feature. Take precautions to ensure you arrive safely at your destination. If you become stranded in an unfamiliar area, do not leave your car. Light flares in front and behind the car and make sure the exhaust pipe is not blocked by snow, mud or objects.
